DETAILED ACTION

1. The following is a Notice of Allowability in response to Amendment received on 09 July 2004. Claims 1 and 7 have been amended. Claims 1-9 remain pending in this application.

EXAMINER'S AMENDMENT

2. An examiner's amendment to the record appears below. Should the changes and/or additions be unacceptable to applicant, an amendment may be filed as provided by 37 CFR 1.312. To ensure consideration of such an amendment, it **MUST** be submitted no later than the payment of the issue fee.

Authorization for this examiner's amendment was given in a telephone interview with Reg. No. on 09 September 2004.

The application has been amended as follows:

IN THE CLAIMS:

Claim 1, lines 3 and 4, deleted "said pin" and inserted "said bi-directional pin".

Claim 7, line 4, deleted "said pin" and inserted "said bi-directional pin".

REASONS FOR ALLOWANCE

3. The following is an examiner's statement of reasons for allowance:

As per claim 1, the prior art of record taken alone or in combination fail to teach measuring the drive strength of the signal on the bi-directional pin and responsive to said measurement determining whether the bi-directional pin is an input or output.

As per claim 7, the prior art of record taken alone or in combination fail to teach means for measuring the drive strength of the signal on the bi-directional pin and responsive to said measurement determining whether the bi-directional pin is an input or output.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."

Information Disclosure Statement

4. The information disclosure statement (IDS) submitted on 19 October 2000 is being considered by the examiner.

Conclusion

5. The prior art made of record and not relied upon is considered pertinent to applicant's disclosure.
